

## Safe School Culture

All students and adults who are a part of the Franklin community must agree to sign the following school culture agreement:

“I understand that a safe school culture is one which guarantees that students and staff feel safe physically, emotionally, socially, and academically because both students and staff obligate themselves to treat one another in a way that makes each other feel appreciated and valued as an individual. A safe school culture requires community members to actively foster the values of: respect, responsibility, accountability, tolerance, and service to the community.

I accept my obligation to contribute to the Franklin safe school culture by always:

- Treating others with tolerance and respect regardless of our differences and beliefs
- Treating Franklin School with loyalty and respect by not bringing drugs or alcohol onto school property, not being under the influence of drugs or alcohol at school, not bringing weapons of any kind on school property, and not supporting or resorting to harassment intimidation or violence.

**Failure to meet the expectations of the safe school obligation is grounds for removal from the Franklin school and placement in another educational setting.**
